CAD Models for New Electronics System (Modern Robotics)

(self.FTC)

submitted 2 months ago by [YummyPlastic](#) [5199](#) (Captain)

Since I couldn't find them online, I decided to model them myself.

Here they are in .stl format:

[Core Power Distribution Module](#)

[Core Motor Controller](#)

[Core Servo Controller](#)

[Core Legacy Module](#)

[Core Device Interface](#)

My team's website, [FTC 5199](#), [Duct Tape](#) and [a Prayer](#) has every other Tetrix part available for download.

Let me know if I made any mistakes, or if you need anything else modeled.
